

AN EDUCATED APPROACH TO MAKE-UP.™

MUD makes continuing your education easy and convenient

Today's beauty professionals need to know more than hair and skincare, they must be competent in all aspects of their craft. For this reason Make-up Designory has created a group of classes in makeup artistry to help students of cosmetology and esthetics and licensed professionals meet the full needs of their clientele. The courses are held conveniently at MUD's main campuses, Partner Schools and internationally at MUD Studios.

MUD Studio courses are based on the same great educational methodology and teacher training that has helped to make Make-Up Designory a bedrock in make-up education. The courses are pulled from the same curriculum that comprises the longer programs at MUD's main campuses in Los Angeles and New York, but are broken up into smaller modules. These modules can be taken separately or combined, allowing the student to transfer their education to one of MUD's main campuses.

A simple concept with lots of opportunities

With two main campuses in Los Angeles and New York along with our network of Partner Schools and MUD Studios, Make-Up Designory strives to bring the best in make-up education to both the novice and professional artist. MUD courses are designed along strict curricula with defined goals and taught by MUD certified instructors.

MUD Studio courses give you the opportunity to enhance your knowledge, add to your passion for make-up artistry or to help reposition you towards a new career.

The standardized curriculum and focused teacher training of the MUD certified staff, allows you to have the same level of quality regardless of where you take a MUD course. In fact, the courses can be taken at one location or at different locations. Despite which location you choose, your course records are tracked and certifications are delivered through the MUD corporate offices in California.

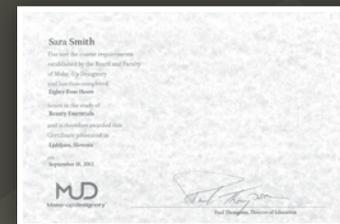

Certifications

Make-Up Designory has courses and groups of courses to meet the needs of licensed professionals. For this reason, all classes require Beauty Essentials as a prerequisite. All classes are also offered as continuing education for beauty professionals. We have developed our courses to build upon one another, so that students will benefit from the combined materials and the progressive nature of the curriculum. We have created groups of classes to illustrate possible combinations. These groups are designed to provide comprehensive training in various aspects of make-up artistry.

Please note that some classes may not be available at all locations. A Certificate and Card are awarded for successful completion of any course or group of courses.

MUD standardized curricula gives you the option to take courses at various locations throughout the country.

Individual Courses & Continuing Education

Courses can be taken by individuals in related fields who are seeking professional enhancement in their chosen area of employment.

In order to register for individual courses, students may have to demonstrate that they are licensed, in the process of being licensed or working professional make-up artists that possess the skills required to enroll.

Please note that enrollment requirements and courses offered may differ by state or country.

Certificates and cards are awarded to students who successfully complete an individual course.

Course: Beauty Essentials

This course is designed as an introduction to beauty make-up with an emphasis on the techniques required today in the beauty, entertainment and fashion industries. Regardless of which of these areas you intend to work in, mastery of beauty make-up is a must.
